Official Paper of Lincoln County

A new democratic daily newspaper, the Telegram, has been established at Elko.

Get your smoked glasses ready. There will be an eclipse of the sun near sunset. Next year three eclipses next Thursday. It will be visible here near sunset. Next year, June 8th, there will be a total eclipse of the sun which will be visible in this region.

A Washington special says: "E. H. Harriman has declared there is no truth in the charge Senator Smoot makes that the Harriman roads are conspiring against Utah. He stated that the federal government cannot compel the railroads to discriminate in favor of Utah and that Utah has been as well treated as any other western state and gets as good rates as possible." How about Nevada, Mr. Harriman?

Student In Hospital.
G. A. Keep, one of the mining students from the University of Utah, is in the Duckworth hospital suffering with a sore toe. It is reported that it will be necessary to undergo a surgical operation the result of which will be that the young man will be obliged to give up further work with his class here.

CARSON CITY MINT.

Equipment Being Installed To Increase Its Capacity.

Superintendent Colcord of the United States assay office at Carson City has received word that he should put in his requisition for three new gas furnaces, with blowers, motors and other machinery needed for their operation.

These furnaces will take the place of the old coke furnaces. Two of the old furnaces will be dismantled and one retained for emergencies. The new furnaces will be installed as rapidly as possible. The blowers will be run by electricity and it will be possible to do in twenty minutes work that now requires an hour and a half, thereby doubling the capacity of the assay office about twice. Two additional men will be required and will be provided.

The office handled last month about \$300,000 worth of bullion and would have handled about three times as much had it not been for the unfortunate fact that the furnaces are not large enough for the work required in this state. Superintendent Colcord requested this equipment some months ago when the Goldfield Consolidated shipment of \$200,000 worth of bullion was transhipped because the superintendent had no facilities for working it. When the improvements are finished the mint will be able to take care of all the bullion produced in Nevada.

NOTICE OF RECEIVER'S SALE.

New Building Operations

will require a good deal of concrete. To build economically of concrete you need to mix economically, and the best way to mix economically is to use

THE RANSOME CONCRETE MIXER.

It was the first successful mixer and is still ahead of all others.

We carry them in stock and can equip them with steam, gasoline and electric power.
